

Self-adhesive caps

Product Data Sheet (PDS)

last modified: 2025.06.09

1. Product Characteristics

→ [Self-adhesive caps 12x27](#) and → [Self-adhesive caps for skirting boards](#) are made of polyethylene film coated with pressure-sensitive adhesive and a cellulose-based paper used as adhesive backing protection.

2. Material Composition

polyethylene film: up to 80%, pressure-sensitive adhesive: up to 5%, cellulose paper: up to 30%

3. Technical Parameters

not applicable

4. Application/Functionality

the caps are used to cover uncoated surfaces (e.g. cut or drilled areas); they serve as a self-adhesive finish for lamellas 12×27 and skirting boards

5. Assembly Method:

the product should only be assembled by adults or minors under adult supervision; do not eat, drink, or smoke while using the product; carefully clean and degrease the area where the cap will be applied, peel the cap from the blister pack, position it correctly, and press firmly; after installing the caps, wash your hands thoroughly with soap and water; follow the instructions in the → [Assembly Manual](#)

6. Storage and Transportation

keep product packaging tightly closed and store at temperatures between 0–25°C in well-ventilated areas; protect from direct sunlight, heat sources, and ignition sources; do not store near electrical devices, or together with food or animal feed; after use, carefully seal any opened packaging

7. Usage Recommendations

do not use chemical agents to remove dirt or stains; intended for indoor use only; protect from sunlight, heat sources, and ignition sources; when securing the product (e.g. during renovation or painting), use only standard painter's tape, which must be removed within 24 hours

8. Safety Instructions

this product is not a toy; it may only be assembled by adults or by minors under adult supervision

1. TAKE EXTRA CARE:

- the product contains small parts that pose a risk of choking or suffocation
- use with particular caution in the presence of children and/or persons with disabilities to prevent dangerous behavior
- maintain a safe distance between the product and sources of heat (such as radiators, fireplaces, stoves, etc.)
- do not use the product near electrical devices
- do not store together with food products or animal feed
- waste generated after using the product should be sorted and delivered to selective collection points in accordance with local regulations

2. Interaction with Other Products

do not use the product near electrical devices; do not store it together with foodstuffs or animal feed

3. Impact of Other Products on the Item

do not use chemical agents to clean dirt; keep a safe distance between the product and sources of heat (radiators, fireplaces, stoves, etc.)

4. Additional information

The products covered by this PDS comply with European Regulation **REACH No. 1907/2006** and do not contain substances listed as SVHC (Substances of Very High Concern) candidates.
